**\$0.00**

*Year-to-date total* of net one-year costs of House-passed appropriations:

**\$28,730,000,000.00**

---

Net five-year revenue change by House bills passed *this week*:  
**\$0.00\***

*Year-to-date* net five-year revenue change by House-passed bills:  
**-\$21,753,000,000.00**

\*H.R. 4931, the Retirement Savings Security Act, which passed the House this week, has revenue effects but not until FY2011. "The Money Monitor" accounts for five-year effects only.

---

An authorization explicitly allows funding for a certain program and / or directs a federal agency to take a certain action. Authorizations express the House's intent to spend, however, actual funding is provided through the annual appropriations process. **Authorizations with no net cost, bills that would result in no significant net change in mandatory spending or federal revenue, and private-sector costs from federal mandates are not reported here.**

Mandatory spending directly establishes an appropriation. No subsequent action is required for the money to be spent.

All numbers in "The Money Monitor" are positive unless otherwise indicated.

The costs of conference reports are not recorded here. "The Money Monitor" only accounts for the costs of bills as they first pass the House.
